**Length:** 3 Months

**Cost:** \$12,750

**Cost Unit:** Cost of the entire program

## Website

<http://www.alyeskahelicopters.com/programs/private-pilot>

This program is designed for the student who has little or no flight time and wishes to obtain a Private Pilot Certificate with Rotorcraft Rating. A Private Pilot Certificate is similar to a driver's license; it allows the pilot to fly for recreation with or without passengers and to share operating expenses with them, but prohibits the pilot from conducting flights for compensation or hire.

## Related Occupations

Airline Pilots, Copilots, and Flight Engineers  
Commercial Pilots
